

CALL FOR PAPER

International Symposium of the IUFRO Working Group S2.02.07

September 16-21, 2007

Saint-Michel-des-Saints and Québec City
(Québec) Canada

Integrated research activities for supply of improved larch to tree planting: tree improvement, floral biology and nursery production

The organization of the IUFRO 6th International Symposium on Larch Breeding and Genetic Resources – *Larix 2007* is under way. We invite you to submit proposals for oral presentations and posters that address any of the following themes:

- Genetics;
- Tree breeding;
- Floral biology and seed production;
- Nursery production;

- A general topic session on Larch (Larix 2007 plenary session);
- Larch silviculture and wood utilization (in French).

Consult the conference web site for information about the languages of the oral or poster sessions. Conference and poster sessions will take place at the Québec City Convention Centre, September 19-20 during the [Carrefour de la recherche forestière 2007](#).

Submit your abstract (no longer than 300 words) before February 8, 2007 to « martin.perron@mrrf.gouv.qc.ca ». Include your session choice (concurrent volunteer sessions, Larix 2007 plenary, silviculture-wood utilization, or poster), title, author (s) and affiliation. Use an Arial 10-point font and underline the name of the author who will give the presentation. Please indicate if you are a student (some student awards will be available).
